TOUR IN YOUR OWN CAR

VISITORS to England may use their own car for touring and visiting for a period up to six months in length under the convenient scheme established some time ago by the Austin Motor Company. This plan offers several advantages. In the first place, the visitor, by buying in England at the "delivered overseas price," as shown on previous page, has six months' use of his own car, thus being able to explore with great convenience the beauties of Great Britain and study places

of interest, as well as visit friends. In case a tour on the Continent is desired, the Austin Motor Company will make all the necessary arrangements regarding Triptyques. When he is prepared to return home, he hands the car to the Austin Motor Company, who then take all responsibility off his hands till the car is delivered at one of the chief ports in his own country, duty paid, without any extra charge whatever.
